

Functional Skills Maths

Adult Training Courses

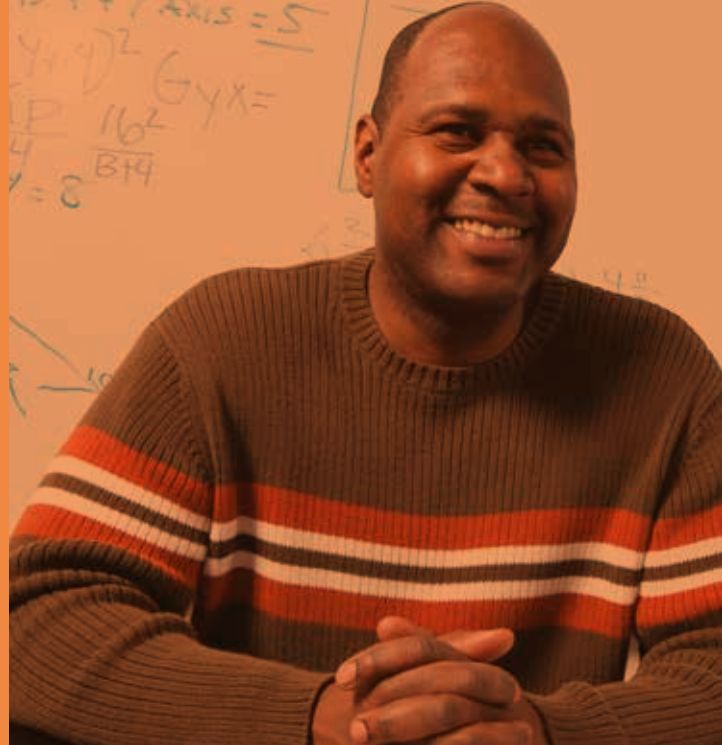

Functional Skills are the essential skills needed for English, maths and ICT. As well as gaining an accredited qualification which is attractive to employers, this course will enable you to develop skills which you can use in everyday life.

Futures for Business offers Functional Skills Maths from Entry Level 3 to Level 2, allowing you to start working at a level suitable to your current abilities and allow natural progression onto higher qualifications.

Through our dedicated trainers, you will be able to develop your confidence in everyday maths skills including budgeting, calculations and using weights and measures which is delivered through a relaxed approach tailored to your individual abilities and at a pace that works for you!

Working across the East Midlands, we help people to gain the skills needed to enter into sustainable employment or progress in their chosen career.

All of our training courses come with accredited qualifications recognised by employers and support with entry into further education.

What will the course cover?

Futures can offer you the chance to increase your skills in maths using a range of learning and assessment methods to ensure you reach your full potential. Futures will work with you to design a bespoke maths programme to help tackle your areas for development based on a comprehensive assessment. We offer three levels of qualifications: Entry Level 3, Level 1 and Level 2 (Equivalent to GCSE Grade C-A). All the levels cover the following topics:

- Ratio – Introduction, direct proportion, simplifying and sharing
- Percentages
- Money – salaries and tax
- Fractions
- Perimeter, Area and Volume – including complex shapes
- Scale – use of maps
- Averages – extract and present data
- Probability

What qualifications will I receive?

At the end of the course, upon satisfactory completion, all learners will gain a qualification accredited through City and Guilds:

- Functional Skills in Maths Entry Level 3/Level 1/Level 2

This course is delivered part-time for 2 days a week over a 6 week period*

How is the qualification assessed?

The qualification will be assessed through the completion of an online or paper based final exam covering all topics learnt.

All learners will receive ongoing support and assessment through constructive feedback from our qualified trainers throughout the course.

Is it right for me?

- Do you want to become more confident in maths?
- Do you require a maths qualification to find employment?
- Do your maths skills need refreshing?

If so, then this is the ideal opportunity for you.

Upon completion, the programme supports progression onto further qualifications such as apprenticeships or higher education.

* subject change based on chosen qualifications

"I get my biggest kick in teaching from those 'penny drop' moments when someone gets it, particularly in maths where people may have struggled in the past."

Tim Hargreaves, Functional Skills Maths Trainer
